EXECUTIVE SUMMARY

Aspiring Software Engineer with a strong foundation in Java, C++, and C, complemented by hands-on experience in Full-Stack Web Development. Certified AWS Developer (via Infosys Springboard) with practical exposure to MongoDB database integration and Object-Oriented Programming (OOP). Proven ability to develop real-world applications through internships at IMAGECON and ODUGATECH. Passionate about leveraging Data Structures and cloud technologies to build scalable, reliable software solutions in a fast-paced professional environment.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering

R. P. Sarathy Institute of Technology | 2023 – 2027

- Currently pursuing undergraduate degree in Computer Science and Engineering
- CGPA: 7.5
- Relevant Coursework: Programming Fundamentals, Data Structures (Basics), Computer Networks, Database Concepts, Software Engineering

Higher Secondary Education (Class XI & XII)

Jothi Matriculation Higher Secondary School | 2022 – 2023 | 71.5%

- Completed 11th and 12th grade with focus on Mathematics and Computer Science fundamentals

Secondary School Education (Class X)

Shri Swamy Matriculation Higher Secondary School | 2021 | Pass

- Successfully completed 10th grade with strong academic foundation

SKILLS

- C, C++, Java

Web Technologies:

- HTML, CSS

Core Concepts:

- Object-Oriented Programming (OOPs)
- Data Structures (basic)

HOBBIES

- Cooking, which enhances creativity and time management; listening to educational podcasts to stay updated with technology trends and improve continuous learning; and drawing, which strengthens visual thinking, attention to detail, and creative problem-solving.

CORE COMPETENCIES:

- Creativity
- Time management
- Continuous learning
- Team Collaboration & Communication
- Adaptability

CONFERENCE

- AWS Developer – Infosys Springboard:

Completed the full AWS Developer syllabus and participated in an assessment for certification.

Conference Participation:

Received a Certificate of Participation for attending a conference held at Velammal Institution.

INTERNSHIP

Web Development Intern | IMAGECON

- Developed responsive web interfaces using HTML and CSS to ensure high-quality user experiences.
- Integrated MongoDB databases with front-end components to manage data for full-stack applications.
- Applied full-stack development fundamentals to build and deploy functional web-based solutions.

Java Programming Intern | ODUGATECH:

- Engineered robust Java-based applications by implementing Object-Oriented Programming (OOP) principles.
- Architected and debugged Java programs designed for real-world use cases to improve logic and efficiency.
- Utilized foundational Core Java knowledge to develop functional software components and application logic.
